DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 18, 22 – 39, 43 – 60 and 64 - 98, drawn to managing file extensions in a digital processing system with user interface, classified in class 707, subclass 205.
 - II. Claims 19 – 21, 40 – 42 and 61 – 63, drawn to detecting naming conflicts when a file is moved into a folder that has existing files on a data processing system, classified in class 709, subclass 213.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention has separate utility such as follow.

Group I: Processing the user input for the name of a file or subset of a file for display and managing file extensions in a digital processing system with user interface.

Group II: Detecting naming conflicts when a file is moved into a folder that has existing files on a data processing system.

See MPEP § 806.05(d).

Art Unit: 2172

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
